PROFESSIONAL SUMMARY

AI/ML Engineer specializing in interactive, data-driven applications. Expert at blending technical engineering with UI/UX design to deliver real-time user experiences. Proven track record in managing large-scale digital portfolios and building intelligent systems using Python.

TECHNICAL SKILLS

- AI/ML & Development: Python, Java, C++, JavaScript, ML, NLP, DSA.
- Design & UI/UX: 7+ Years Freelance Experience, Adobe Illustrator, Photoshop, Figma.
- Web & Tools: HTML5, CSS3, Bootstrap, GitHub, AI Productivity Tools.

PROFESSIONAL EXPERIENCE

Senior Graphic Designer & Illustrator (Freelance)

2018 – Present

- Managed a digital portfolio of 3,000+ Microstock assets across Freepik, Adobe Stock, and Shutterstock.
- Delivered high-quality vector illustrations and templates leveraging 6+ years of commercial design expertise.

Network Engineering Intern | Industrial Training

Aug 2021 – Feb 2022

- Executed network setup and troubleshooting to ensure 24/7 system connectivity.
- Managed hardware configuration and performance maintenance for industrial-scale operations.

PROJECTS

AI-Powered Resume Screening System [GitHub](#)

Sep 2025 – Jan 2026

- Technologies: Python, TensorFlow, NLP, Scikit-learn, Flask, React.js.
- Engineered an NLP-based tool to automate resume parsing and candidate ranking for specific job roles.
- Designed a real-time visualization dashboard to streamline high-volume recruitment workflows.

Fake News Detection Using Machine Learning [GitHub](#)

Sep 2025 – Dec 2025

- Technologies: Python, Scikit-learn, NLTK, Pandas, Matplotlib.
- Built a predictive model using Scikit-Learn to classify news articles and detect misinformation patterns.
- Implemented linguistic analysis algorithms to achieve high precision in text-based data classification.

EDUCATION

B.Tech in Computer Science (AI & ML) | Galgotias University

2023 – 2027

Diploma in Computer Science Engineering | Bangladesh | CGPA : 83.5%

2018 – 2022

CERTIFICATIONS & PORTFOLIO LINKS

- Certificates:** Machine Learning, Java, Python, JavaScript, and DSA.
